1. *WELCOME TO THE CONFERENCE* / BIENVENIDA AL CONGRESO

Dear colleagues, dear friends,

On behalf of the Confederation of the European ORL-HNS and the Spanish Society of ORL-HNS, it is a pleasure to welcome you in Barcelona for the 1st Congress of the CEORL-HNS and the 62nd Congress of the SEORL-PCF. The european societies (EUFOS) and subspecialty societies (European Academy) have been actively contributing to set up an intensive programme through its International Scientific Committee.

Eighteen daily simultaneous sessions, 135 round tables, 111 keynote and invited lectures, and 109 instruction courses among which you will have the difficulty to choose, together with hundreds of poster, video and oral presentations have been scheduled along these almost 4 days.

Participants from over 100 countries have registered and we would like to welcome specifically the colleagues from the three invited countries (in alphabetic order): China, Egypt and South Korea.

For the first time ever the congress organization is offering a special fee for colleagues below 35 years of age to attract those who will soon become the future of the ORL-HNS.

Since the votation in Mannheim 2009, the European meeting of the Confederation shall be held every two years from now on, organized either by EUFOS or by the European Academy. It is our pleasure to already announce the April 2013 meeting in Nice (Prof. Jacques Magnan) and the next one in 2015 in Prague (Prof. Jan Betka).

This is not my congress, it is entirely yours, and as such I ask you to make the best out of it - simply enjoy it.

With my best regards

Manuel Bernal-Sprekelsen, M.D., Ph.D.
Congress President

Queridos colegas, queridos amigos,

En nombre de la Confederación Europea de ORL y PCF y la Sociedad Española de ORL y PCF, es un placer daros la bienvenida a Barcelona para el 1er Congreso de la CEORL-HNS y 62 Congreso Nacional de la SEORL-PCF. Las sociedades nacionales europeas, representadas en la EUFOS, y las de subespecialidades, representadas por la European Academy, han contribuido de forma muy activa a través del Comité Científico Internacional para crear un programa intensivo.

Dieciocho sesiones simultáneas diarias (cuatro de ellas en español, más dos salas con traducción simultánea constante) que se han programado durante estos casi cuatro días, cuyo tiempo se reparte entre 135 mesas redondas, 111 conferencias y 109 cursos de instrucción –entre los cuales tendréis la dificultad de elegir– junto con cientos de comunicaciones orales, vídeo y póster.

Participantes de más de 100 países acuden a este congreso, y nos gustaría especialmente dar la bienvenida a los colegas de los tres países invitados: China, Corea del Sur y Egipto.

Por primera vez la organización del congreso ofrece una cuota especial para los colegas menores de 35 años, para atraer a aquellos que en breve se convertirán en el futuro de nuestra especialidad.

Desde la votación de Mannheim 2009, el congreso europeo de la Confederación se celebrará cada dos años a partir de ahora, organizado por la EUFOS o la European Academy. Es un placer anunciar ya los dos próximos eventos: Niza en abril de 2013 (Prof. Jacques Magnan), y el siguiente en Praga en 2015 (Prof. Jan Betka).

Éste no es mi congreso, es totalmente vuestro, y como tal os pido que le saquéis el máximo partido; simplemente, disfrutadlo.

Con mis mejores deseos,

Prof. Dr. D. Manuel Bernal-Sprekelsen
Presidente del Congreso

1. *WELCOME TO THE CONFERENCE* / BIENVENIDA AL CONGRESO

Dear colleagues, dear friends,

On behalf of the Confederation of the European ORL-HNS and the Spanish Society of ORL-HNS, it is a pleasure to welcome you in Barcelona for the 1st Congress of the CEORL-HNS and the 62nd Congress of the SEORL-PCF. The european societies (EUFOS) and subspecialty societies (European Academy) have been actively contributing to set up an intensive programme through its International Scientific Committee.

Eighteen daily simultaneous sessions, 135 round tables, 111 keynote and invited lectures, and 109 instruction courses among which you will have the difficulty to choose, together with hundreds of poster, video and oral presentations have been scheduled along these almost 4 days.

Participants from over 100 countries have registered and we would like to welcome specifically the colleagues from the three invited countries (in alphabetic order): China, Egypt and South Korea.

For the first time ever the congress organization is offering a special fee for colleagues below 35 years of age to attract those who will soon become the future of the ORL-HNS.

Since the votation in Mannheim 2009, the European meeting of the Confederation shall be held every two years from now on, organized either by EUFOS or by the European Academy. It is our pleasure to already announce the April 2013 meeting in Nice (Prof. Jacques Magnan) and the next one in 2015 in Prague (Prof. Jan Betka).

This is not my congress, it is entirely yours, and as such I ask you to make the best out of it - simply enjoy it.

With my best regards

Manuel Bernal-Sprekelsen, M.D., Ph.D.
Congress President

Queridos colegas, queridos amigos,

En nombre de la Confederación Europea de ORL y PCF y la Sociedad Española de ORL y PCF, es un placer daros la bienvenida a Barcelona para el 1er Congreso de la CEORL-HNS y 62 Congreso Nacional de la SEORL-PCF. Las sociedades nacionales europeas, representadas en la EUFOS, y las de subespecialidades, representadas por la European Academy, han contribuido de forma muy activa a través del Comité Científico Internacional para crear un programa intensivo.

Dieciocho sesiones simultáneas diarias (cuatro de ellas en español, más dos salas con traducción simultánea constante) que se han programado durante estos casi cuatro días, cuyo tiempo se reparte entre 135 mesas redondas, 111 conferencias y 109 cursos de instrucción –entre los cuales tendréis la dificultad de elegir– junto con cientos de comunicaciones orales, vídeo y póster.

Participantes de más de 100 países acuden a este congreso, y nos gustaría especialmente dar la bienvenida a los colegas de los tres países invitados: China, Corea del Sur y Egipto.

Por primera vez la organización del congreso ofrece una cuota especial para los colegas menores de 35 años, para atraer a aquellos que en breve se convertirán en el futuro de nuestra especialidad.

Desde la votación de Mannheim 2009, el congreso europeo de la Confederación se celebrará cada dos años a partir de ahora, organizado por la EUFOS o la European Academy. Es un placer anunciar ya los dos próximos eventos: Niza en abril de 2013 (Prof. Jacques Magnan), y el siguiente en Praga en 2015 (Prof. Jan Betka).

Éste no es mi congreso, es totalmente vuestro, y como tal os pido que le saquéis el máximo partido; simplemente, disfrutadlo.

Con mis mejores deseos,

Prof. Dr. D. Manuel Bernal-Sprekelsen
Presidente del Congreso
