## Program

### Monday, 19th of April, 2021

7:45 - 8:00 Registration

### Lectures / recorded surgeries

8:00 - 8:15 Welcome and course objectives.

8:15 - 8:45 Getting started in endoscopic ear surgery.

Endoscopic ear anatomy.

8:45 - 9:15

9:15 - 10:30

Procedures 1:

- Myringoplasty: inlay, underlay and over-under techniques
- Retraction pockets
- Ossiculoplasty

10:30 - 11:00

Coffee break

11:30 - 12:15

Procedures 2:

- Stapedotomy
- Cholesteatoma
- Other procedures: middle ear tumors, facial nerve decompression, vestibular neurectomy, acoustic neuroma, combined endoscopic-microscopic approaches (cholesteatoma, cochlear implants, tumors)

12:15 - 13:00

Round table "Future perspectives in endoscopic ear surgery"

13:00 - 14:00

Lunch

### Hands-on dissection (LABORATORY)

14:00 -14:30 Live demo

14:30 -15:15

Basic techniques I:

- Handling and positioning the endoscope
- Myringotomy and ventilation tube insertion
- Graft harvesting
- Inlay grafts

15:15 -16:30

Basic techniques II:

- Tympanomeatal flap elevation, atticotomy
- Underlay grafts
- Extended tympanomeatal flap
- Over-under grafts
- Stapes surgery
- Ossicular reconstruction (TORP, PORP)

16:30-17:00

Coffee break

17:00-17:30

Live demo

17:30-19:00

Advanced techniques:

- Facial decompression, combined retroauricular-transcanal approach, cochlear implants, vestibular neurectomy, access to IAC, two-handed surgery
