17:30 FINAL REMARKS

18:00 Cultural Tour of Barcelona

Hands-on cadaver dissection:

One-Day Intensive Course on Neck and Oral Cavity Reconstruction using Pedicled Flaps, designed for Otolaryngologists. The program combines theoretical lectures with a supervised, hands-on practical session using fresh cadaveric specimens. Each participant will work on a hemi-specimen, ensuring a realistic and individualized surgical experience focused on functional outcomes.

Includes: certificate of attendance, coffee breaks, lunch, and course materials.

Language: English, Spanish
